CHINA OOLONG	68457	280457	168457

One of the world's great teas. A favored drink in mainland China and Taiwan, oolong tea originated in the Wuyi mountains of China's Fujian province. Oolong is semi-oxidized, combining qualities of black and green teas. It has a distinctive fruity taste and bright golden color.

PU-ERH	68458	280458	168458
---------------	--------------	---------------	---------------

Pu-erh is an ancient medicinal tea from China's Yunnan province. Pu-erh is made from the dayeh, or large leaf variety of the tea plant. Following a centuries old secret processing method, the leaves are allowed to partially ferment, giving the tea its unique earthy flavor and deep, rich color.

GINGER GREEN	68456	280456	168456
---------------------	--------------	---------------	---------------

Aromatic ginger, long used as a flavoring and medicinal root, lends a distinctive tang and aroma to traditional Japanese green tea. It has a flavor both spicy and delicate, a soothing drink for any season.

CHRYSANTHEMUM	68454	280454	168454
----------------------	--------------	---------------	---------------

Chrysanthemum's yellow petal, a cooling herb in traditional Chinese medicine, adds a flowery note to Yunnan Pu-erh tea. Pu-erh tea has been prized since the Sung dynasty for its medicinal properties.

GENMAI GREEN	68450	280450	168450
---------------------	--------------	---------------	---------------

An informal, convivial drink in Japan, Genmai is shared at home with friends. This unique brew is made from green tea and brown rice. It has a light golden color in the cup and a nut-like flavor and aroma.

GREEN TEA AND GINSENG	68455	280455	168455
------------------------------	--------------	---------------	---------------

Ginseng is famous as a medicinal herb, reputed to enhance performance under stress and boost immune response. It has long been cultivated in China, Korea, and Japan. Combined with Japanese green tea, it produces a bracing, slightly astringent drink.

SPECIAL OCCASION GREEN	68452	280452	168452
-------------------------------	--------------	---------------	---------------

Centuries of tea blending experience go into the creation of this original blend of fine green teas, including matcha, the powdered leaf tea used in the traditional Japanese tea ceremony. This tea has a pale golden color in the cup and a delicate flavor with a hint of sweetness.

KUKICHA ROASTED GREEN	68451	280451	168451
------------------------------	--------------	---------------	---------------

Kukicha is "twig tea," made from the prunings of the tea plant, roasted to bring out its distinctive flavor. Kukicha is appreciated for its rich nutty taste and dark brown color.

JASMINE GREEN	68453	280453	168453
----------------------	--------------	---------------	---------------

Jasmine scented green tea is one of the most popular teas in China. Jasmine is picked in the heat of the day, when the tiny flowers are closed tight. The blossoms open in the cool of the evening when they are blended with the tea leaves to create this fragrant, refreshing beverage.
